WORK EXPERIENCE

AI Intern | Techsnap Educations LLP | Python, LangChain, LangGraph, Hugging Face, Ollama Jun 2025 – Aug 2025

- Refined Retrieval-Augmented Generation (RAG) pipelines by optimizing pre-prompts, improving LLM output relevance by **20%**.
- Fine-tuned local LLMs (Ollama, Hugging Face) using LangChain/LangGraph, **enhancing adaptability** and **reducing inference latency**.
- Built a GPT-style internal testing UI, **streamlining evaluation workflows** for in-house LLMs.

Full Stack Intern | SRM University, AP | Next, Node, MongoDB, JWT, Shadcn, nivo-charts Jun 2024 – Aug 2024

- Architected a centralized student dashboard delivering a scalable codebase for long-term maintainability and seamless feature expansion.
- Implemented advanced search, sorting, and filtering features, cutting administrator lookup time from **3–5 minutes in Excel** to **10–30 seconds** with significantly fewer human errors.
- Enabled CSV/XLSX export functionality, automating report generation and reducing manual effort from **30 min.** to under **2 min.**

PROJECTS

Ashwini | React, FastAPI, shadcn/ui, Prisma, LangChain, NivoCharts, OlaMaps [\[GITHUB LINK \]](#)

- Engineered a real-time **inventory and supply chain dashboard** to track **stock levels, usage patterns, and logistics status**.
- Designed interactive **visual analytics** (charts, KPIs, and trend graphs) for shortage detection and demand forecasting, and integrated **Ola Maps** to visualize peer distribution across India.
- Implemented secure **CRUD workflows** with role-based access control for administrators and staff, ensuring data integrity.

cUrlBaby | Java, CLI, Shell, OOP, HTTP [\[GITHUB LINK \]](#)

- Designed a lightweight **Java-based CLI utility** for API testing replicating core Postman features, built with modular **object-oriented patterns**.
- Implemented full **HTTP operation support** (GET, POST, PUT, DELETE) with **timeout control**, error handling, and a custom **JSON parser** for clear console output.
- Developed an intuitive **workflow** for streamlined request management and response visualization directly in the terminal.

Up.ly | React, Tailwind CSS, Node.js (Express.js), MongoDB, LangChain, Python, Chrome Extension [\[GITHUB LINK \]](#)

- Built an **AI-driven career preparation platform** that generates tailored **resumes** and **cover letters** based on **job descriptions** and user data.
- Developed a **Chrome extension** to **auto-fill job application forms**, reducing manual effort and improving efficiency.
- Implemented **AI agents** using **LangChain** to generate personalized **mock interview questions** and **preparation sheets** aligned with job descriptions.
- Architected a **scalable system** leveraging a **modern web stack** to deliver seamless user experience across resume generation, interview preparation, and application workflows.

BorrowBridge | React, Solidity, web3.js, Thirdweb, Ethereum, Tailwind CSS [\[GITHUB LINK \]](#)

- Built a decentralized token-based crowdfunding platform on **Ethereum** using smart contracts, ensuring transparent fundraising.
- Integrated **Thirdweb** for **smart contract deployment** with a simple **React interface** for campaigns and investments.

VOLUNTEERING & LEADERSHIP

- Technical Coordinator at Google Developer Groups (GDG) SRM AP**, leading workshops on **LLMs, API integration**, and real-time AI projects while mentoring peers and organizing community initiatives.
- Winner of **ETHGlobal New Delhi 2025 (PayPal Track)** with **BURP**, a platform simplifying and diversifying crypto investing through agent-driven clustering; also winner of **Unfold'24 (Coinbase Track)** with **SMS Protocol**, enabling MPC-powered crypto transactions via SMS. Participated in **DeFy'24, SIH, CodeAgoda, Tata Imagithon**, and **Bajaj HackRx**.
- Member at **Norman Lab, Next Tech Lab (QS-ranked)**, contributing to research and development in **Full Stack** and **AI/ML** with peer-reviewed outputs.

SKILLS

Programming Languages: C, C++, Python, JavaScript

Databases: PostgreSQL, MongoDB, MySQL, Redis

Backend & Services: Firebase, REST APIs

AI: LangChain, LLM APIs (OpenAI, Groq, Gemini), RAG

Frameworks & Dev: React, Next.js, FastAPI, Flutter, Dart

Cloud & DevOps: AWS (EC2, Lambda, S3), Docker, Postman

Tools: Git, NGINX, Cloudflare

Blockchain: Solidity, Web3.js, Ethers.js, Thirdweb

EDUCATION

SRM University, Andhra Pradesh

B.Tech CSE (AI & ML) | CGPA: 8.9 | 25% Merit Scholarship

Sep 2022 – Jul 2026
